

Pom Pom Flowers

You will need:

- Wool in several different colours
- Long green pipe cleaners
- Green felt
- Pencil
- Pom pom templates
- Thin cardboard
- Scissors
- Strong glue
- Ribbon

1

Cut out a pom pom template the size you want your flower to be and use a pencil to draw it onto cardboard twice.

2

Cut the cardboard rings out and carefully cut out the middle using your scissors and place together.

3

Choose a wool and thread the end of it through the rings and back around itself to create a knot. The two rings should now be fastened together with the wool.

4

Cut a very long length of wool. Keep it connected to the knot and push it through the hole again. Wrap it around the edge, keeping it close together.

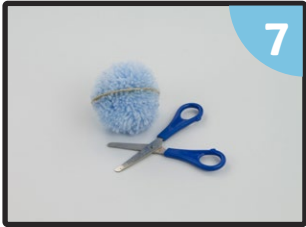

5

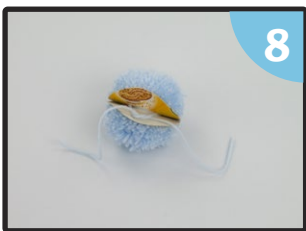

Keep wrapping until there is no longer a hole. (You may need to use a needle as the hole becomes smaller.) Cut off any excess wool.

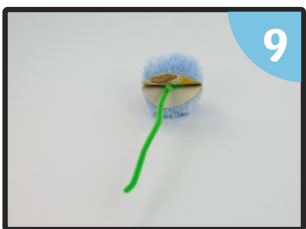

6 Take your scissors and carefully snip through the wrapped wool around the edge, leaving the cardboard in one piece.

7 Continue to do this all the way round until you are left with a pom pom with discs around the middle.

8 Take a short length of wool in the same colour and tie it very tightly around the middle of the pom pom in between the two rings. Cut off any excess.

9 Next, wrap your pipe cleaner over the top of the wool around the centre and twist it around itself to create a stalk. Remove the rings.

10 Fold the edge of your green felt over and draw a leaf on it with a flat bottom up against the fold.

11 Cut this out without cutting along the fold.

12 Wrap the leaf around your stalk so that the two leaf sections are pressed together with glue to hold it in place.

13

Repeat this process using different wools and different sized pom poms to make lots of flowers.

14

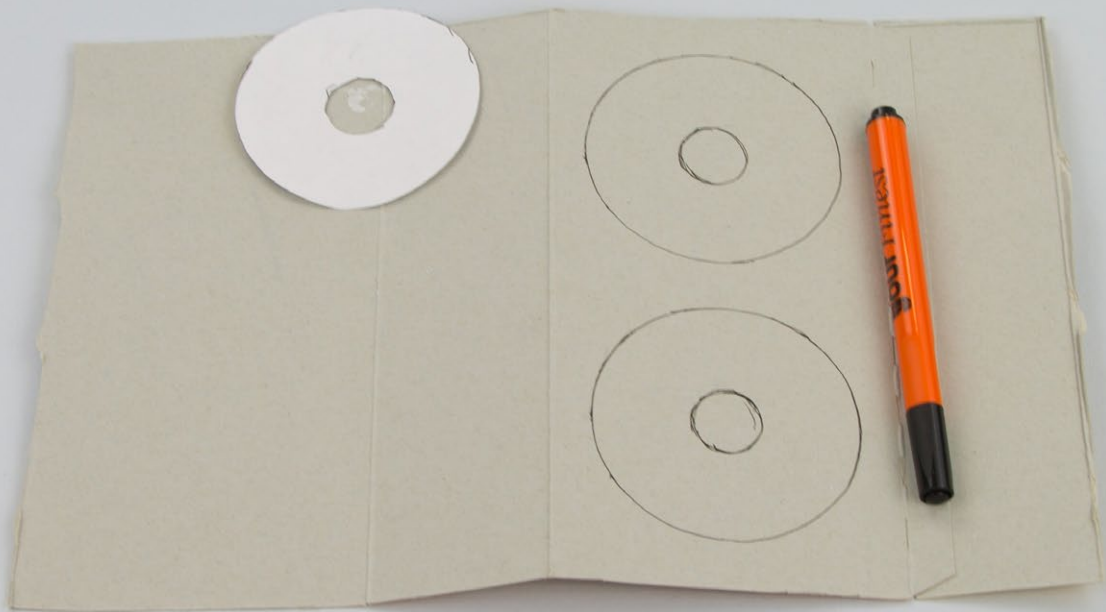

Tie together into a bunch of flowers with a ribbon.

Pom Pom Flowers

You will need:

- Wool in several different colours
- Long green pipe cleaners
- Green felt
- Pencil
- Pom pom templates
- Thin cardboard
- Scissors
- Strong glue
- Ribbon

Step 1

Cut out a pom pom template the size you want your flower to be and use a pencil to draw it onto cardboard twice.

Step 2

Cut the cardboard rings out and carefully cut out the middle using your scissors and place together.

Step 3

Choose a wool and thread the end of it through the rings and back around itself to create a knot. The two rings should now be fastened together with the wool.

Step 4

Cut a very long length of wool. Keep it connected to the knot and push it through the hole again. Wrap it around the edge, keeping it close together.

Step 5

Keep wrapping until there is no longer a hole. (You may need to use a needle as the hole becomes smaller.) Cut off any excess wool.

Step 6

Take your scissors and carefully snip through the wrapped wool around the edge, leaving the cardboard in one piece.

Step 7

Continue to do this all the way round until you are left with a pom pom with discs around the middle.

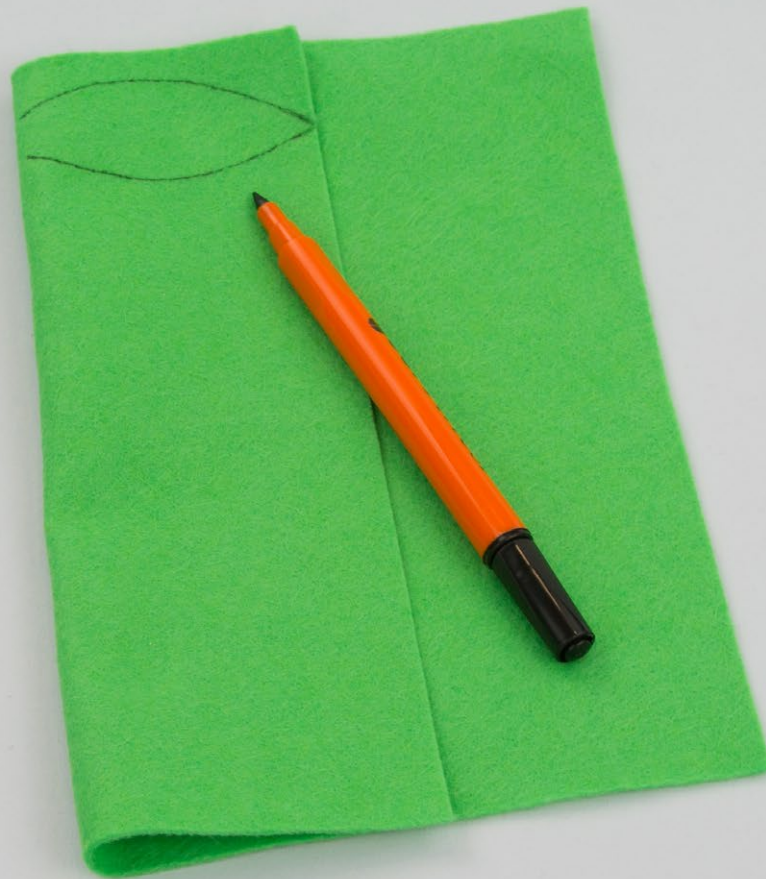

Step 8

Take a short length of wool in the same colour and tie it very tightly around the middle of the pom pom in between the two rings. Cut off any excess.

Step 9

Next, wrap your pipe cleaner over the top of the wool around the centre and twist it around itself to create a stalk. Remove the rings.

Step 10

Fold the edge of your green felt over and draw a leaf on it with a flat bottom up against the fold.

Step 11

Cut this out without cutting along the fold.

Step 12

Wrap the leaf around your stalk so that the two leaf sections are pressed together with glue to hold it in place.

Step 13

Repeat this process using different wools and different sized pom poms to make lots of flowers.

Step 14

Tie together into a bunch of flowers with a ribbon.
